

Turn Pig Pattern into Piggie

Materials/Tools

- Our Moveable Mouth Pig Hand Puppet Pattern - available at either [Craftsy](#) or [Etsy](#).
- Piggie Eye and Eyebrow (included in this pdf)

Instructions

Step 1: Follow the instructions in the Pig Pattern until you get to the Eye.

Step 2: Use the Piggie Eye pattern included in this pdf instead of the original Eye (M) pattern.

Step 3: Cut out two Piggie Eyes from black felt.

Step 4: Now carefully trim the eye to the smaller gray shape. If you trim the eye right, then the outer excess felt can be used to make the eyebrows. You can also draw on eyebrows or embroider them if you choose.

Step 5: Hand sew the black felt eye to the puppet using black thread.

Step 6: Hand sew the eyebrow to the puppet using black thread.

Step 7: You now have a Piggie puppet. Have fun!
